I am currently a student at Queens College in pursuit of my BA in Computer Science as well as attending Columbia University Engineering Boot camp for full stack JavaScript development. Results-driven Computer Science professional with good technical skills, firm grasp of business needs and understanding of user requirements gathering. Assesses risks, troubleshoots problems and conducts tests. Excellent communication and planning abilities. I'm a well rounded individual who is very ambitious, creative and highly motivated. One of my best qualities is working well in teams. I'm also able to learn new things very quickly and work efficiently.

Work History

2019-07 - 2019-08 **Logistics Processor**

Nordstrom, Garden City, NY

- Worked a seasonal position as a logistics processor.
- My day consisted of me fulfilling web orders for Nordstrom, packaging the items and shipping them out to the customer.
- Checked prices and calculated totals for accurate invoice processing.
- Worked with supervisors and team members to understand web supply needs and bring levels within desired tolerances.

2018-08 - 2018-09 **US Open Retail**

USTA, Flushing, NY

- Worked the entire US open 2018 series at the USTA center in Flushing New York
- My day consisted of me cashiering and being a floor associate.
- Pursued resolutions to achieve complete customer satisfaction, including tracking down hard-to-find merchandise at diverse locations.
- Coordinated efficient restocking of sales floor with current merchandise and accurate signage for current promotions.
- Provided accurate information about promotions, customer programs and products, helping drive high customer retention.

Education

2019-09 - Current **Bachelor of Science: Computer Science And Programming**

Queens College of The City University of New York - Flushing, NY

- Majored in computer science (BS)
- In the undergraduate division, the Computer Science department offers courses and

facilities for a major in computer science leading to the BA or BS degree. A major has the necessary preparation for graduate work in the field and for employment in programming, systems analysis, and other computer-related professions.

2020-07 - Current

Bootcamp: Full Stack Web Development

Columbia University in The City of New York - New York, NY

- Computer Science applied to JavaScript
- Databases (MySQL, MongoDB)
- Server Side Development (Node.js, Express, MERN Stack)
- Browser Based Technologies (HTML, CSS, JavaScript, jQuery, Bootstrap)
- Deployment (Heroku, Git)
- Java
